

May 19, 2003

Mike,

It has been a real pleasure getting to know you and working with you these past weeks! Thank you for all of your hard work. It has been very comforting to know you were on the other side of the camera throughout the majority of this production. I trust you and know that the final product will be so much better because you were a part of it.

Let's make music together again real soon!

With gratitude,  
(Art Williams)
